HERO MOTOCORP RAISES THE BAR IN THE SPORTY 125CC SEGMENT WITH XTREME 125R STEALTH EDITION WITH TFT

Advanced TFT connectivity, segment-first Tyre Pressure Monitoring System (TPMS) and distinctive styling to ensure enhanced experience for customers

Hero MotoCorp, *the world's largest manufacturer of motorcycles and scooters,* today announced the launch of the new **Xtreme 125R Stealth Edition with TFT**, further strengthening its leadership in India's **fast-growing sporty 125cc motorcycle segment**. Embodying the brand's core "Live Xtreme" philosophy, the new variant is designed for the new generation of riders who expect elevated performance, style, enhanced rider safety and smart connectivity in equal measure. The new variant reflects Hero MotoCorp's continued focus on democratizing premium technology across motorcycle segments.

Speaking on the launch, **Ashutosh Varma, Chief Business Officer – India Business Unit, Hero MotoCorp** said, *"The sporty 125cc segment continues to evolve rapidly, driven by young customers who seek motorcycles that reflect their aspirations—not just through performance and design, but also through advanced technology. The Xtreme 125R has already established itself as a benchmark in the category by bringing premium engineering and segment-leading features. The new **Stealth Edition with TFT**, further raises the bar by making connected technology and intelligent safety features even more accessible while creating lasting value for our customers and empowering them to truly Live Xtreme."*

A Connected Riding Experience
At the heart of the new variant is a vibrant **4.2-inch TFT instrument cluster with Bluetooth connectivity** that seamlessly integrates navigation, communication and ride information. This feature upgrade brings turn-by-turn navigation, call and SMS alerts, and music control to the rider's fingertips, providing Xtreme 125R riders a modern, tech-forward experience that keeps them seamlessly connected on every ride.

Segment-First Safety Innovation
The Xtreme 125R also introduces a segment-first **Tyre Pressure Monitoring System (TPMS)** bringing an important safety and convenience feature found on larger displacement motorcycles. Reaffirming Hero MotoCorp's commitment to rider safety, Xtreme 125R will be the first motorcycle in the sporty 125cc segment to offer TPMS. With features including real-time tyre pressure information and instant alerts, the system enables riders to maintain optimum tyre health while enhancing safety, convenience and riding confidence across varying road conditions.

Sportier, Sharper and Distinctive Design
Further enhancing its sporty appeal, the Xtreme 125R Stealth Edition with TFT now comes with **coloured alloy wheels**, giving the motorcycle a more cohesive, premium and purposeful stance while staying true to its aggressive design philosophy.

Performance That Sets Benchmarks
Beyond its latest technology additions, the new variant will continue to offer the performance and safety package that has made the Xtreme 125R one of the most compelling motorcycles in its class. The motorcycle has **segment-first Dual Channel ABS for superior braking confidence, three ride modes—Rain, Road and Sport—**allowing riders to tailor performance to varying riding conditions. It also has Cruise Control that enhances comfort during long rides. Together,

these features make the Xtreme 125R Stealth Edition with TFT one of the most comprehensively equipped motorcycles in the sporty 125cc segment.

Colours & Pricing
The new Stealth Edition of the Xtreme 125R will be available in striking Midnight Black colour with Pearl Red Accents. The motorcycle is available at Hero MotoCorp dealerships across the country at an attractive price of INR 1, 16,250 (Ex-Showroom, Pan-India).

Live Xtreme.

About Hero MotoCorp

Hero MotoCorp, headquartered in New Delhi, India, is the world's largest manufacturer of motorcycles and scooters for 25 consecutive years with ~$5 billion revenue. The Company's global footprint spans 54 countries across Asia, Africa, Europe, Central and Latin America with a customer base of over 130 million. The Company operates eight manufacturing facilities - six in India and one each in Colombia and Bangladesh - along with two Research and Development centres: Hero Centre for Innovation and Technology (CIT) in India and Hero Tech Centre Germany (TCG). Hero MotoCorp is driving the transition to electric mobility through VIDA. Strategic alliances with Harley-Davidson and Zero Motorcycles support the design and development of premium and electric motorcycles, respectively.

Further demonstrating its commitment to the EV future, the Company has made strategic investments in two- and three-wheeler EV manufacturers, Ather Energy and Euler Motors. Hero MotoCorp is the only Indian two-wheeler manufacturer listed on the prestigious Dow Jones Sustainability Index (DJSI).

Hero MotoCorp's Executive Chairman, Dr. Pawan Munjal, was named to the 2025 TIME100 Climate List of the 100 most influential leaders driving business climate action.

Beyond mobility, Hero MotoCorp is a major global promoter of sports, including golf, football, field hockey, and cricket. Hero MotoSports Team Rally is India, a flag bearer in global rally racing.
