

Water Policy

Water Policy

Introduction:

Hero MotoCorp Limited (HMCL) is committed to responsible business growth and understands the vital importance of responsible water management in achieving sustainable business operations and environmental stewardship. The water resources we depend on are shared with the communities and customers where we operate, and accordingly, we will act responsibly to protect them for others, ourselves, and future generations.

Objective

To demonstrate leadership in the water ecosystem and take measures to minimize negative impacts on the water cycle of the planet and enhance positive impacts while meeting our business goals and objectives.

Scope

This policy shall apply to all establishments of HMCL, and each stakeholder shall be made a partner in implementing the policy.

Policy Statement

HMCL will:

- Conserve water resources by implementing rainwater harvesting within and beyond the premises (under the same watershed).
- Reduce the freshwater demand by recycling wastewater, water-efficient processes, and alternative technologies.
- Conduct periodic water audits and water impact assessments for continual improvement in water management practices.
- Promote responsible water management practices within our value chain partners to measure, disclose, and improve their water performance.
- Continuously adapt strategies and plans to address issues such as natural and man-made impacts on water resources, including climate change, etc.
- Comply with all applicable environmental regulations.

Training and Awareness

- Provide training and raise awareness among employees and stakeholders about the importance of water conservation and responsible water use.
- Engage with local communities, NGOs, and government authorities to understand and address water-related concerns.

This Policy will commence from the date mentioned hereunder and will be reviewed at an interval of every three years from the date of commencement.
